SOCI 440 Sociology of Health

Professor Lucas

Finding Resources In Chesnutt Library: Books, Articles, Web Sites

Mrs. Whitfield  672-1750  2011
An analysis of the social facets of health and illness, the social functions of health institutions and organizations, the relationship of systems of health care delivery to other social systems, and the social behavior of health personnel and the consumers of health care.
Today's Class Objectives

- Identify resources that you can use in your assignments.
- Be able to search for books and journal articles:
  - Use the Online Catalog to identify books and non-print materials by Keywords Using Boolean Operators and Library of Congress Subject Headings
  - Use the Database Finder for appropriate journal, magazine and newspaper articles, and find viewpoint essays and other background materials.
    - SocIndex; Academic Search Premier
    - Opposing Viewpoints; CQ Press (CQ Researcher)
- Be able to cite the resources you use in
  - ASA (American Sociological Association) Style
  - APA (American Psychological Association) Style
  - MLA (Modern Language Association) Style
Chesnutt Library Has Over 300,000 Book Titles, Over 2,600 Current Periodical Titles in the Library, Over 410 Electronic Journal Titles, Access to over 11,600 Full-Text Electronic Journal Titles through NC Live, and Over 300 Full-Text Article, Statistical, Biographical and Informational Databases.
Reference Department
1st Floor of Chesnutt Library

- Staffed by professional librarians (M.S.L.S.).
- Assistance with using reference materials, the online catalog, electronic databases, and basic Internet searching.
- Assistance with finding books, journal articles and relevant Web sites.
- Forty+ computers with Microsoft Office 2007 and Internet capabilities.

Fall 2011 Hours
Hours are Extended During Midterms and Finals
Monday through Thursday 8:00 a.m. until 10:00 p.m.
   Friday 8:00 a.m. until 6:00 p.m.
Saturday 8:00 a.m. until 5:00 p.m.
   Sunday 2:00 p.m. until 11:00 p.m.
You Can Obtain Books, Articles and Dissertations from Other Schools. Go to Services, Interlibrary Loan and Register for ILLIAD

Requests are processed daily, Monday through Friday. Most requested items are received within one week (5-7 days) of the date of your request. Some items may take longer (2-3 weeks) if they cannot be obtained locally.
Setting up Your Library PIN Number Allows You to Access Article and Information Databases Off-Campus and Access Electronic Course Reserves.

Once You Have Created Your PIN: You Can Renew Books Online; Request Loans of Books and Articles Through ILLIAD; and Place Hold Requests on Books From UNC-P and UNC-W to be sent to FSU.
If this is your first time, create a PIN number using at least four letters or numbers. After you submit, the next screen will prompt you to enter the PIN twice more. When Correct, Your Name, Address, Phone Number and an Expiration Date (end of the semester) will display.

Use your University ID Number (Banner# or 83#).

If you receive an "Invalid PIN" message, you may or you have forgotten what it was. You can contact the Circulation Desk to delete it out or use the "Forgot your PIN" link and it will be emailed to you.
Your Library Record Will Show Your Current Status. A Copy of This and Your FSU ID or Driver’s License Will Allow You to Check Materials Out of the 16 Other UNC System Schools

The End Date of the Current Semester

EXP DATE: 05-14-2011

About Sociology and Library of Congress Call Numbers and Subject Headings

Sociology is the social science which studies human behavior in society. Sociology seeks to understand patterns of behavior within society, and how culture and social institutions shape human behavior. Economics, political science, anthropology, and psychology are also social sciences. Each of these focuses on human behavior and how it is related to society. Economists seek to understand production and distribution of goods and services. Political scientists center their attention on government and politics. Anthropologists focus on understanding culture in variously defined and developed societies. Psychologists seek to understand mental processes and problems of individuals. How people cope in relationships. Sociologists explore the social consequences of politics, government, and distribution of goods and services. Sociologists wish to understand how culture dictates daily interactions and how people adjust to difficulties of life. Sociology combines all of the disciplines together, and studies human behavior on a large scale.

Sociologists follow the scientific method when doing research, just as physicists and chemists do. The goals of scientific research include explaining why phenomena occur, making generalizations from individual cases and using data collected from wider groups. Most important, sociologists try to understand the social fabric in order to predict and perhaps improve the future.

The science of sociology developed out of the pervasive social changes of the Industrial Revolution. The actual term “sociology” was originally coined by Auguste Comte (1798-1857) who was interested in applying scientific method to the study of society. Comte wished to study society not to fix what was wrong but to learn about it. Comte’s ideas came from a time when people were beginning to accept positivism (belief in scientific explanations instead of theological or metaphysical ones). Comte believed that society operates according to particular laws, just as the physical world operates according to laws of gravity and nature.

From Comte’s basic idea of social research, three men made their contribution to sociological theory. Karl Marx (1818-1883), Émile Durkheim (1858-1917), and Max Weber (1864-1920) constructed theories to explain how and why society functions. These theories have been drawn from extensively and continuously over the years. These theories laid the framework for the entire discipline of sociology. New theories have sprung forth from their work, but current research confirms their approaches.

Several women and minorities have made their names in sociology as well. Jane Addams (1860-1935) was the first and only sociologist to be awarded the Nobel Peace Prize (1931) for her work with urban sociology. Addams also established a center for reform in Chicago where sociologists worked on problems using sociological theory and the scientific method. Harriet Martineau (1802-1876) contributed to the field of sociology by translating Comte’s writings from French to English. She also worked to eliminate slavery and advance the position of women.
MBA - HEALTHCARE FOCUS SUBJECT GUIDE

"The Fayetteville State University MBA program with focus on Healthcare Management is designed to provide cutting edge graduate education for individuals interested in furthering their careers in the management and administration of healthcare delivery organizations, such as, hospitals, integrated health care systems, managed care firms, medical practices, community health organizations as well as healthcare planning and consulting." Go to the FSU MBA Healthcare Focus Web Site.

Finding Resources on Sociology of Health
The Library of Congress (LC) Classification System

The Library of Congress Classification System is what is used in the Charles W. Chesnutt Library to arrange the books that are located in Reference on the first floor, and in the收藏 on the second and third floors. This classification system uses letters and numbers to denote the main subject content of materials. Books in the Government Documents Collection located on the fourth floor of Chesnutt Library are arranged using the Superintendent of Documents classification groups items by the government agency that produces the material.

Major LC Subject Classifications:

A General Works
- AE Encyclopedias
- AG Dictionaries
- AY Almanacs, Directories

B Philosophy, Psychology, Religion
- B-BD Philosophy
- BF Psychology
- BH-BJ Ethics
- BL Religion
- BM Judaism

With Inclusion, Steven Epstein argues that strategies to achieve diversity in medical research mask deeper problems, ones that might require a different approach and different solutions. Formal concern with this issue, Epstein shows, is a fairly recent phenomenon. Until the mid-1980s, scientists often studied groups of white, middle-aged men—and assumed that conclusions drawn from studying them would apply to the rest of the population. But struggles involving advocacy groups, experts, and Congress led to reforms that forced
CHAPTER TEN

To Profile or Not to Profile: What Difference Does Race Make?

How different is different? When assessing medical knowledge and determining medical treatment, just how important is it to take into account a person’s sex, race, ethnicity, age, sexuality, or other dimension of identity? Which differences really matter? When and why? These questions are pivotal for this book, and they merit renewed scrutiny here, now that the story of the inclusion-and-difference paradigm has been told. My historical account emphasized how ideas about medical difference, when yoked together with claims about justice and citizenship, helped inspire new biomedical policies and priorities since the 1980s. But in turn, the new inclusionary requirements, coupled with growing attention to health disparities along with the rise of “recruitmentology,” have intensified the tendency to take difference into account and have spawned an impressive quantity of “difference findings” from biomedical research. Thus, the argument that medical knowledge travels poorly across categories of persons—that there are limits to generalizability—is more firmly entrenched now than at the dawn of the inclusion-and-difference paradigm, in large measure because of practices and tendencies that the paradigm has promoted.

Introduction

The Value of a Degree in Sociology

As a busy career counselor, I have spoken with many, many sociology majors throughout the years. Sociology has always been one of the more popular declared majors, and the number of students graduating with degrees in sociology and related social sciences is on the rise. It is striking how many of the students I talk with describe sociology as a “perfect fit” with who they

Title: The deadly deception [videorecording] / WGBH Educational Foundation ; with George Strait
Publisher: Princeton, NJ : Films for the Humanities & Sciences, c1993

LOCATION
FSU Media Center

CALL #
R853.H8 D43 1993

STATUS
AVAILABLE

Description: 1 videocassette (60 min.) : sd., col. ; 1/2 in
Series: Nova
Note: VHS format
Videocassette release of a program from the PBS series, Nova
Close-captioned for the hearing impaired

Credits
Writer, producer and director, Denise Dianni ; executive producer, Paula S. Apsell

Summary
This program investigates the Tuskegee Study of Untreated Syphilis in the Negro Male, a medical experiment conducted in Alabama from 1932-1972 in which Afro-American men believed they were receiving free treatment for syphilis, but were given worthless medicines by government physicians

Subject
Tuskegee Syphilis Study
African American men -- Diseases -- Alabama -- Macon County -- History
African Americans -- Alabama -- History
Human experimentation in medicine -- Alabama -- Macon County -- History
Medical ethics -- Alabama -- History
Syphilis -- Research -- Alabama -- Macon County -- History
Syphilis -- Treatment

**American Song**
American Song is a history database that will contain 50,000 tracks that allow people to hear and feel the music from America’s past. The database will include songs by and about American Indians, miners, immigrants, slaves, children, pioneers, and cowboys. Included in the database are the songs of Civil Rights, political campaigns, Prohibition, the Revolutionary War, the Civil War, anti-war protests and more. This release includes 728 albums -- over 12103 tracks.

**Anthropological Index Online**
(1970-current). Citations to publications in the field of anthropology with search engine.

**Articles First**
Indexes journals in science, technology, medicine, social science, business, the humanities, and popular culture.

**Blackwell Synergy**
459,037 articles from 780 leading journals

**Cabell's**
Information about scholarly journals from the perspective of the author “the professor’s guide to success”
CQ Press
Includes CQ Weekly, CQ Reseach and Global researcher also "Political Reference Suite". Search all of these resources from this link. "All content is produced and vetted by scholars seasoned journalists, and CQ Press editors."

CREDO Reference
CREDO Reference, formerly Xreferplus, is a digital reference library, which contains all types of reference books (currently 169 titles) that you'd want to see in any library: dictionaries, encyclopedias, thesauri, and books of quotations, not to mention a host of subject-specific titles covering: art, bilinguals, biography, business, conversions, dictionaries, encyclopedias, food, geography, history, language, literature, music, medicine, philosophy & psychology, quotations, religion, science, social sciences, technology. Features include a concept mapping search interface.

Criminal Justice Abstracts
OFF CAMPUS PATRONS: USE THE LINK BELOW. Criminal Justice Abstracts covers crime trends, crime prevention and deterrence, juvenile delinquency, juvenile justice, police, courts, punishment and sentencing.

Criminal Justice Periodicals
A comprehensive collection of U.S. and international criminal justice journals including information for professionals in law enforcement, corrections administration, drug enforcement, rehabilitation, family law, and industrial security.

Criminology: A SAGE Full-Text Collection
Full-text of 23 journals published by SAGE and participating societies, some journals going back 23 years, encompassing over 5,500 articles. It covers such subjects as Criminal Justice, Juvenile Delinquency, Juvenile Justice, Corrections, Penology, Policing, Forensic Psychology, and Family and Domestic Violence.

Digital Dissertations, Proquest Full Text
With more than two million entries, the Dissertation Abstracts database is the single, authoritative source for information about doctoral dissertations and master's theses. Titles since 1997 have 24 page previews available in pdf format.

Dissertation Abstracts
NCLIVE
A core group of reference and research materials online in the form of full-text electronic information and indexes.

North American Immigrant Letters, Diaries, and Oral Histories
North American Immigrant Letters, Diaries, and Oral Histories provides a unique and personal view of what it meant to immigrate to America and Canada. Contains more than 100,000 pages of personal narratives, including letters, diaries, pamphlets, autobiographies, and oral histories.

North American Indian Biographical Database
This fourth release of the North American Indian Biographical Database contains over 62,000 pages of text and images. Included are biographies, auto-biographies, personal narratives, speeches, diaries, letters, and oral histories.

North American Indian Thought and Culture

North American Women’s Letters and Diaries
Over 150,000 pages of published letters and diaries plus 4,000 pages of previously unpublished materials depicting the personal experiences of hundreds of women. Remote access coming soon. Contains materials from Colonial times to 1950.

Opposing Viewpoints
Draws on the acclaimed social issues series published by Greenhaven Press, as well as core reference content from other Gale and Macmillan Reference USA sources to provide a complete one-stop source for information on social issues. Access viewpoint articles, topic overviews, statistics, primary documents, links to websites, and full-text magazine and newspaper articles.

Periodical Abstracts
(1987-current). Abstracts from general and academic journals, covering business, current affairs, economics, literature, religion, psychology, women's studies, and others.

Proceedings First
Psychology and Behavioral Sciences Collection
The Psychology & Behavioral Sciences Collection is a comprehensive database providing nearly 575 full text publications, including 550 peer-reviewed journals. The database covers topics such as emotional and behavioral characteristics, psychiatry & psychology, mental processes, anthropology, and observational and experimental methods.

PsycARTICLES
PsycARTICLES is a definitive source of searchable full-text, peer-reviewed scholarly and scientific articles in psychology. The PsycARTICLES database covers general psychology and specialized, basic, applied, clinical and theoretical research. The database contains more than 40,000 articles from 56 journals - 45 published by the American Psychological Association (APA) and 11 from allied organizations.

Serials Directory
(Indexing: current). Information includes journal price, e-mail and Internet address.

Social Theory

Social Work Abstract
The Social Work Abstracts database contains more than 45,000 records, from 1977 - present, from social work and related journals on topics such as homelessness, AIDS, child and family welfare, aging, substance abuse, legislation, and more.

SocINDEX
SocINDEX with Full Text offers comprehensive coverage of sociology, encompassing all sub-disciplines and closely related areas of study. These include abortion, criminology & criminal justice, demography, ethnic & racial studies, gender studies, marriage & family, political sociology, religion, rural & urban sociology, social development, social psychology, social structure, social work, socio-cultural anthropology, sociological history, sociological research, sociological theory, substance abuse & other addictions, violence and many others. In addition, SocINDEX with Full Text features over 5,000 Author Profiles.
Welcome to Social Theory

Social Theory offers an extensive selection of documents that explore the complexities and interpret the nature of social behavior and organization. Particular care has been taken to index this material so that it can be searched more thoroughly than ever before. The current release features more than 145,000 pages of content by such major theorists as Theodor Adorno, Jean Baudrillard, Simone de Beauvoir, Howard Becker, Émile Durkheim, Michel Foucault, Jürgen Habermas, Robert Merton, Dorothy Smith, and Talcott Parsons.

Introduction

Ever since scientists began to decipher the human genome in the 1990s, hopes have run high that unraveling the genetic code would rapidly revolutionize health care. But while gene research has changed scientists' understanding of many diseases, practical applications remain few. Genetic tests for single-gene diseases such as cystic fibrosis are available, and doctors can more precisely pinpoint the kind of cancer a patient has by analyzing genes. Gene tests can also predict how patients will respond to some drugs. However, no actual gene therapy has been approved for human use, and researchers now know that diseases such as heart disease, Alzheimer's and adult-onset diabetes usually result from a complex interaction among numerous genes and a person's environment. These findings cast doubt on whether current genetic tests for such prevalent diseases are accurate and whether gene science makes it any easier to find treatments.

Abstract Gendered power imbalances in heterosexual relationships are a key target of gender-sensitive STI risk reduction interventions. Gendered aspects of sexual behaviour have not been explored among Canadian indigenous young people, who are at elevated risk for STI relative to other young Canadians. We used data from in-depth qualitative interviews with 15 male and 15 female indigenous young people to explore gendered sexual behaviour and its implications for STI reduction. There was a pervasive ‘double standard’ where young men were expected to be sexually aggressive and young women were expected to resist sexual advances; but we also observed ‘alternative’ or non-harmonic behaviours. Specifically, young women were often very active...

TAMMI ARFORD
Northeastern University, Department of Sociology and Anthropology, Boston, MA, USA

ABSTRACT
There is an increasing understanding about the importance of social networks in the overall health of individuals. In the past year studies have found that strong social ties could promote brain health as we age; having obese friends increases the risk for obesity; and older people with many friends outlive those with fewer friends. This manuscript describes capacity-building interventions based on social capital, including empowerment, community youth development and collective efficacy models, which can work at the individual and community level in preventive and treatment-based interventions. These interventions allow public health practitioners working with low-income communities to reduce health disparities, promote well-being, and decrease inequalities.

KEYWORDS: sociology; social capital; capacity-building interventions; public health; empowerment; collective efficacy
INTRODUCTION

In the quest for better health, many people turn to doctors, self-help books, or herbal supplements. But they overlook a powerful weapon that could help them fight illness and depression, speed recovery, slow aging, and prolong life: their friends. (New York Times, April 20, 2009)

Researchers are increasingly paying attention to the importance of social networks in overall health. Several studies released this past year demonstrate how important social relationships are to a variety of health issues, including brain functioning, longevity, and obesity (Christakis and Fowler 2007; Ertel et al 2008; Giles et al 2005). Through these research findings, we get an idea of how important social capital is to health. Yet, few works have documented how public health practitioners operationalise social capital in their interventions. This paper seeks to provide guidance to public health practitioners by reviewing the literature on social capital and health to identify key elements of successful social capital/network interventions, and suggest several ways public health practitioners can apply these concepts in their interventions to improve health in poor, urban communities. We suggest three types of interventions (empowerment, community youth development, and collective efficacy) and provide examples, based on a survey of the literature, of successful programs that exemplify each model.

Social capital is a core concept in business economics, organisational behaviour, political science, sociology and public health (Portes 1998), and it has relational, material and political components. Health providers have gained the whereby the accumulated stress, lower environmental quality, and limited resources in poor communities experienced over time, erodes the health of residents, making them more vulnerable to mortality from any given disease (Ellen

How to Find Journal Titles

- Check to see if the journal title is owned by Chesnutt Library by checking FSU’s Online Library Catalog under Journal Title or the Journal Finder.

- Go to the Periodicals Department
  - 1st Floor for Current Periodicals with titles A-Z
  - 1st Floor for Bound Journals with titles A-B
  - 2nd Floor for Bound Journals with titles C-Z
  - 1st Floor for Newspapers

- Make a note of the format and location
  - Microfiche 1st Floor (File Cabinets Behind the Elevator)
  - Microfilm 1st Floor (Shelves Near the Newspapers)
  - Printed Indexes are located on the 1st Floor.
Copiers are Available on the 1st, 2nd and 4th Floors and in the Curriculum Lab on the 2nd Floor

Option 1
- Sending to the print location `\\hpps02a\FSUPRINT1` or `\\hpps02a\Mono` can print or make photocopies anywhere on campus. Students are allowed 375 pages per semester, with the ability to contact the ITTS Help Desk at 910-672-2085 to increase the amount. The default is front/back.

Option 2
- Copies cost $0.09 per page if made at the copiers in the Library's Lobby.
- Copies can be made from the Microfiche and Microfilm readers onto paper
- No Change is available in the Library. Bring bills.
- Money can be added onto your Bronco ID Card. The VTS (Value Transfer Station) is located in the Library’s Student Lounge. The One Card Office is responsible for the Copy Card system.
